About the Business

Context

5 questions · 1 answered · 2 partial · 2 still needed

01

Q01

How many students are currently enrolled, and how many do you expect to grow to?

Scale mentioned as small enough for manual WhatsApp reminders — exact numbers not stated.

❑ NEEDED

Q02

How many tutors do you have, and do they work full-time, part-time, or freelance?

Tutors are paid per session (freelance/session-based). Currently use personal Gmail accounts. Exact number not stated.

~ PARTIAL

Q03

What subjects or grade levels do you cater for?

Selected subjects only — accounting and geography explicitly NOT offered. Full subject list not provided.

~ PARTIAL

Q04

Do you operate from one location or multiple branches?

Not discussed in the meeting.

❑ NEEDED

Q05

How do you currently manage all of this — spreadsheets, WhatsApp, a different system?

Excel for applications/data. Google Calendar + Meet for scheduling. WhatsApp for parent comms. Manual EFT for payments.

✅ ANSWERED

Student Application Process

Module 1

8 questions · 6 answered · 0 partial · 2 still needed

02

Q01

Walk me through how a parent currently enrolls their child — what steps are involved?

Parent receives PDF form, fills digitally or prints, emails/scans back with payment details. Admin manually enters into Excel.

ANSWERED

Q02

What information do you collect from the parent and student?

Parent/guardian name, contact number, email, learner age, school name, current grade, subjects, package choice. Supporting docs: school report + proof of payment.

ANSWERED

Q03

Is there an assessment or placement test before a student is accepted?

No formal assessment. Learners placed by grade and level from application form. Some rejected if subject not offered.

ANSWERED

Q04

Who reviews and approves applications — one person or a team?

Admin team reviews but exact approval workflow and number of approvers not confirmed.

NEEDED

Q05

How do you notify a parent that their application was approved or rejected?

Currently manual — likely WhatsApp or email. Preferred notification channel and automation not confirmed.

NEEDED

Q06

Do parents need to upload any documents?

Yes — latest school/academic report and proof of payment. No ID copy required.

ANSWERED

Q07

Should parents be able to track their application status online?

Yes — system should show statuses (paid, pending, confirmed) to both parents and admin after login.

ANSWERED

Q08

Do students re-apply each term/year, or is enrolment ongoing?

Always open, no fixed closing date. Applications submitted continuously throughout the term.

ANSWERED

Parent Payments

Module 2

9 questions · 7 answered · 0 partial · 2 still needed

03

Q01	How do parents currently pay — EFT, cash, card? What would you prefer going forward? Primarily EFT. Card not the main method. PayFast or EFT-friendly gateway preferred going forward.	☒ ANSWERED
Q02	Is it a flat monthly fee, pay-per-session, or a package/bundle system? Package-based. Package A: monthly, 8 lessons + career guidance. Package B: lighter, exam-prep oriented, per-lesson or different structure.	☒ ANSWERED
Q03	Do fees differ by subject, grade level, or tutor? Currently flat pricing across all subjects and levels. May change as business expands into different school phases.	☒ ANSWERED
Q04	Do you need to generate invoices automatically? Yes — system should track subscriptions and statuses (paid/pending/confirmed) and allow export to Excel or PDF.	☒ ANSWERED
Q05	Do you offer sibling discounts or payment plans? Not discussed — needs to be confirmed before building payment logic.	☐ NEEDED
Q06	How do you currently track who has paid and who hasn't? Manually via Excel. New system should show payment status per parent/learner centrally.	☒ ANSWERED
Q07	Should the system send automatic payment reminders to parents? Short-term: manual WhatsApp (small scale). Medium-term: automated email reminders. SMS/WhatsApp automation deferred due to Twilio cost.	☒ ANSWERED
Q08	Should parents be able to view their payment history and download receipts? Implied yes given the portal vision but not explicitly confirmed — needs to be raised.	☐ NEEDED
Q09	Do you need integration with a payment gateway like PayFast or PayGate? Yes — PayFast discussed as preferred option for EFT and potential recurring billing. Final gateway not fully locked in.	☒ ANSWERED

Class Scheduling

Module 3

10 questions · 6 answered · 0 partial · 4 still needed

04

Q01

Are sessions one-on-one, small groups, or both?

Small groups — tutor-to-learner ratio of 1:3, sometimes fewer. Grouped by subject, grade, and level.

ANSWERED

Q02

If group classes — what is the maximum number of students per class?

Maximum 3 learners per tutor (1:3 ratio), sometimes fewer depending on demand.

ANSWERED

Q03

Are sessions in-person, online (e.g. Zoom), or a mix?

Online via Google Meet. Long-term vision: join links appear directly in the platform at class time.

ANSWERED

Q04

How long are sessions, and how often does each student attend per week?

Package A includes 8 lessons/month but session duration and weekly frequency not stated.

NEEDED

Q05

Do classes follow a fixed recurring schedule, or do they vary each week?

Recurring events on Google Calendar, manually created each week. Fixed recurring preferred but currently time-consuming.

ANSWERED

Q06

Can parents book, reschedule, or cancel sessions themselves?

Not discussed — clarify whether self-service or admin-managed only.

NEEDED

Q07

How much notice is required for a cancellation or reschedule?

Not discussed — define policy before building cancellation logic.

NEEDED

Q08

Should the system send session reminders to parents and students?

Yes — Google Meet currently sends notifications. New system should include reminders tied to join links.

ANSWERED

Q09

How do you handle public holidays or tutor absences?

Not addressed — confirm whether sessions are rescheduled, cancelled, or credited.

NEEDED

Q10

Should attendance be tracked per session?

Yes — admin currently checks manually whether sessions happened. System should automate this.

ANSWERED

Tutor Assignment & Management

Module 4

9 questions · 8 answered · 1 partial · 0 still needed

05

Q01

How do you currently decide which tutor gets assigned to which student?

ANSWERED

Allocated by grade, level, and subject. Admin does this manually after reviewing the application.

Q02

What factors influence the assignment decision?

ANSWERED

Subject match, grade, and level are the primary factors used to place learners quickly.

Q03

Can a student have more than one tutor for different subjects?

ANSWERED

Yes — learners grouped by subject and level, implying different tutors may cover different subjects.

Q04

Should the system suggest a tutor based on availability and subject match, or does admin always decide manually?

ANSWERED

Long-term: automate allocation from application form. Initially admin assigns manually.

Q05

What information do you store per tutor? (qualifications, subjects, availability, rate)

PARTIAL

Tutor rate is flat per session. Full tutor profile fields (qualifications, availability slots etc.) not fully defined.

Q06

Will tutors log into the system themselves to manage their availability or view their schedule?

ANSWERED

Yes — tutors are a named user role. Currently use personal Gmail; business wants org-managed accounts.

Q07

Do tutors submit session notes or progress reports after each session?

ANSWERED

Yes — term reports covering learner performance, progress, strengths and weaker areas. No formal exams; performance-based assessment.

Q08

Are tutors paid per session, monthly, or on another structure?

ANSWERED

Per session. Monthly log sheets submitted (26th–25th cycle). Logs treated as invoices; approved and paid at month end.

Q09

Does the system need to track tutor earnings or integrate with accounting?

ANSWERED

Yes — integration with SMEasy discussed so approved session data feeds into finance/accounting automatically.

Roles, Access & Delivery

Wrap-up

8 questions · 4 answered · 0 partial · 4 still needed

06

Q01

Who are the different types of users?

ANSWERED

Four roles confirmed: Admin, Parent, Learner (student), Tutor.

Q02

What should each user type be able to see and do — and what should they NOT have access to?

NEEDED

Roles are named but permissions per role not mapped — needs to be defined before development.

Q03

Does admin need a dashboard with an overview of pending applications, unpaid fees, today's sessions?

ANSWERED

Yes — central visibility over finance, subscriptions, parents, and learners from one console. Separate pages for each entity.

Q04

Should the system send notifications via SMS or WhatsApp, or only email?

ANSWERED

Email primary (free, high volume). WhatsApp manual for now. SMS/WhatsApp automation deferred due to cost.

Q05

What device do most of your parents use — phone or desktop?

NEEDED

Not confirmed — critical for deciding mobile-first vs desktop design priority.

Q06

Is there a hard go-live deadline or preferred launch date?

NEEDED

Not discussed — must be agreed before scoping is finalised.

Q07

After launch, who manages and maintains the system — your team or ours?

NEEDED

Not discussed — confirm support and maintenance arrangement.

Q08

What does success look like 3 months after launch?

ANSWERED

Less admin burden, organised data, platform that supports growth. Ongoing collaboration planned — not a one-off build.

Questions Still Needed

These questions were not addressed in the meeting and must still be raised with the client.

PHASE 01 — ABOUT THE BUSINESS

- 01

How many students are currently enrolled, and how many do you expect to grow to?
Scale mentioned as small enough for manual WhatsApp reminders — exact numbers not stated.

❑ NEEDED
- 02

How many tutors do you have, and do they work full-time, part-time, or freelance?
Tutors are paid per session (freelance/session-based). Currently use personal Gmail accounts. Exact number not stated.

~ PARTIAL
- 03

What subjects or grade levels do you cater for?
Selected subjects only — accounting and geography explicitly NOT offered. Full subject list not provided.

~ PARTIAL
- 04

Do you operate from one location or multiple branches?
Not discussed in the meeting.

❑ NEEDED

PHASE 02 — STUDENT APPLICATION PROCESS

- 05

Who reviews and approves applications — one person or a team?
Admin team reviews but exact approval workflow and number of approvers not confirmed.

❑ NEEDED
- 06

How do you notify a parent that their application was approved or rejected?
Currently manual — likely WhatsApp or email. Preferred notification channel and automation not confirmed.

❑ NEEDED

PHASE 03 — PARENT PAYMENTS

- 07

Do you offer sibling discounts or payment plans?
Not discussed — needs to be confirmed before building payment logic.

❑ NEEDED
- 08

Should parents be able to view their payment history and download receipts?
Implied yes given the portal vision but not explicitly confirmed — needs to be raised.

❑ NEEDED

PHASE 04 — CLASS SCHEDULING

- 09

How long are sessions, and how often does each student attend per week?
Package A includes 8 lessons/month but session duration and weekly frequency not stated.

❑ NEEDED
- 10

Can parents book, reschedule, or cancel sessions themselves?
Not discussed — clarify whether self-service or admin-managed only.

❑ NEEDED

11

How much notice is required for a cancellation or reschedule?

Not discussed — define policy before building cancellation logic.

❑ NEEDED

12

How do you handle public holidays or tutor absences?

Not addressed — confirm whether sessions are rescheduled, cancelled, or credited.

❑ NEEDED

PHASE 05 — TUTOR ASSIGNMENT & MANAGEMENT

13

What information do you store per tutor? (qualifications, subjects, availability, rate)

Tutor rate is flat per session. Full tutor profile fields (qualifications, availability slots etc.) not fully defined.

~ PARTIAL

PHASE 06 — ROLES, ACCESS & DELIVERY

14

What should each user type be able to see and do — and what should they NOT have access to?

Roles are named but permissions per role not mapped — needs to be defined before development.

❑ NEEDED

15

What device do most of your parents use — phone or desktop?

Not confirmed — critical for deciding mobile-first vs desktop design priority.

❑ NEEDED

16

Is there a hard go-live deadline or preferred launch date?

Not discussed — must be agreed before scoping is finalised.

❑ NEEDED

17

After launch, who manages and maintains the system — your team or ours?

Not discussed — confirm support and maintenance arrangement.

❑ NEEDED
